DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on 10/12/07 and 11/09/07 have been entered.

Response to Arguments

Applicant's arguments, see pages 7-11, filed 10/12/07, and pages 10-14, filed 11/09/07 with respect to claims 16-21 have been fully considered and are persuasive in light of the accompanying amendments. The rejection of claims 16-21 under 35 U.S.C. 102(b) as being anticipated by Hirai et al. (EP 1235126 A1) has been withdrawn.

Allowable Subject Matter

Claims 16-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims are allowed in light of the amendments and arguments filed on 10/12/07 and 11/09/07.

Specifically, the prior art of record (Hirai et al.) fails to teach or fairly suggest that the splines are calculated as polynomials directly from control points stored in workpiece coordinates or in machine coordinates in a CAD/CAM system, and the tool path is generated from six splines if the control points are defined in workpiece coordinates, and is generated from five splines if the control points are defined in machine coordinates, as recited in claim 16 and as similarly recited in claims 18, 20, and 21, in combination with the remaining features and elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
